Marketing Partnership Proposal

Building Iraq's First AI-Powered Procurement Platform

The Problem

How procurement works in Iraq today

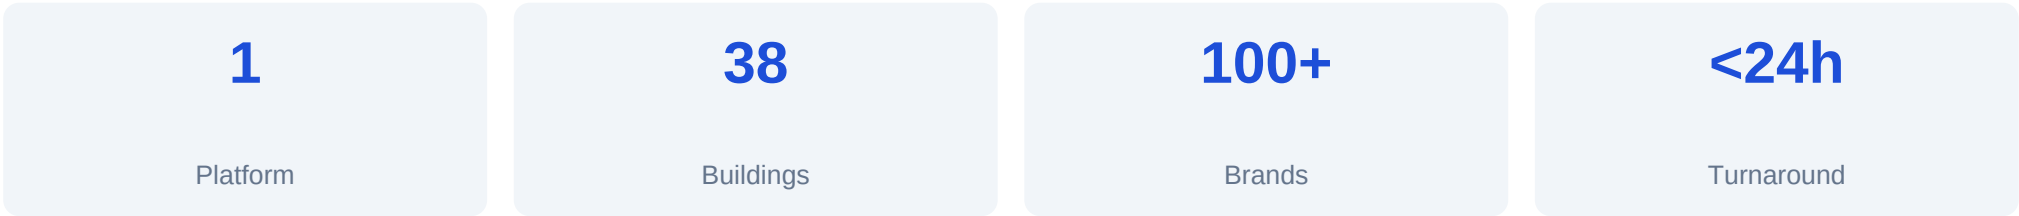

- Manual processes requiring 20+ supplier calls per project
- Days spent waiting for quotes from multiple vendors
- WhatsApp-based negotiations with no audit trail
- Zero price transparency across the market
- Repeated showroom visits consuming valuable time

"A single procurement cycle takes 5-10 days. We reduce that to under 24 hours."

Our Solution

Iraq's first AI-powered BOQ-to-Quotation platform

We digitize and automate the entire procurement workflow - from BOQ submission to supplier quotation - using AI to match requirements with the right products and suppliers instantly.

How It Works

4-step process from BOQ to supplier connection

01

Submit BOQ

Upload your Bill of Quantities document

02

AI Processing

Our AI parses,
categorizes and matches items

03

Get Quotation

Receive competitive quotes in <24 hours

04

Connect to Supplier

Direct connection to verified suppliers

Our Network

Comprehensive coverage across Iraq

38

Buildings

100+

Brands

18

Governorates

12

Industries

Our physical network of verified suppliers and brands provides the foundation for a trusted digital procurement marketplace.

Technology

AI-powered infrastructure for procurement

Document Parsing

- OCR + AI extraction
- Automated BOQ reading
- Multi-format support
- Arabic & English

Computer Vision

- Product recognition
- Image-based matching
- Quality assessment
- Catalog digitization

Smart Matching

- Supplier matching algorithm
- Price optimization
- Availability tracking
- Preference learning

Market Size

A massive, untapped opportunity

\$25-35B

Iraq Construction Market

8%+

Annual Growth

0

Direct Competitors

Growth Drivers

- Government reconstruction programs
- Foreign investment influx
- Housing demand surge
- Infrastructure modernization

Why Now

- Post-conflict rebuilding accelerating
- Digital adoption growing rapidly
- Young population embracing technology
- Government digitization initiatives

The Gap

From manual to digital procurement

Manual Today

Phone calls, showroom visits, WhatsApp groups, spreadsheets

VisionNetworking

AI-powered, instant quotes, verified suppliers, transparent
